Link Controls Limited, was formed in 1990 and is now the leading supplier to the industrial door and gate operator market.

Based at Runcorn, Cheshire, in modern purpose built premises, our aim is to provide an excellent, high quality range of products to the access control industry. This is secured through our close co-operation with European manufacturers and suppliers, who all conform with the latest EC regulations & directives.

Our product range covers specific categories such as:- Rolling Door Drives (sprung & unsprung), Sectional Door Drives, Sliding/Folding Door Drives, Fire Door Drives, Tubular Motors, Sliding/ Swing Gate Drives, Automated Traffic Barriers all of which are complimented by our comprehensive range of Controllers & Ancillary Safety Equipment.

Expertise within the access control industry is present throughout the company, providing customers with detailed information, competitive prices and the correct product for their specific applications. All this is backed up with full technical literature and assistance from our trained staff. This skill enables us to provide a complete service to our customers, from guidance with the initial enquiry & product selection, to a full design package using the latest computer aided design technology. Whether the order is for a one off or a high profile multiple installation we have the ability to give all our customers the same professional care.

Among our satisfied customers and end users are Ford, Honda, Toyota, Motorola, Lansing Linde, Makita, R.A.F., Asda & Aldi Stores

We hold extensive computer controlled stock and the majority of orders are despatched the same day for delivery overnight within the U.K.

Our work force has the flexibility and know-how to take a customers idea/problem, and provide & build a door system that will suit their requirements.

Link Controls operates a continual product improvement regime and whilst maintaining our high quality standards, our aim is to provide our customers with a competitively priced, quality product.

We have achieved ISO 9001:2000 accreditation, which we now run and maintain to ensure that quality standards are kept at a high level throughout the company, and that this quality is passed on within our products.

Our future aims and ambitions are to continue to improve and develop the company & products to meet our customers needs.
