V7 MINI STANDARD Multi Function Control Panel

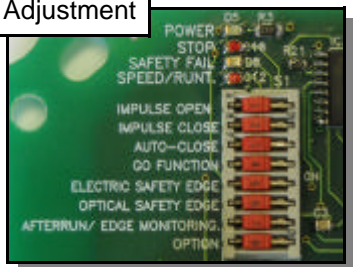

Special Features

- Plug in options for 2 channel loop detector.
- Plug in options for traffic light controller.
- Plug in options for 2 channel radio.
- Monitored safety edge inputs for pneumatic, conductive and optical.
- Fully adjustable timed return from 2 seconds to 4 minutes.
- 4 Diagnostic LED`s to assist with fault finding.
- 3ph starter, IP65 enclosure with M20 knockouts.
- 24VDC auxiliary supply for safety devices.
- Impulse or deadman operation.
- Stop & reverse safety feature.
- Integral test pushbuttons.
- High quality components throughout.
- Clear & simple markings for all connections.
- Panel mounted pushbuttons.

The Mini Standard provides conventional starter operation and automatic features but with the convenience of plug in modules for even more advanced features without modifying or replacing the panel.

The Mini Standard now offers even more features that were once the preserve of more expensive custom built control panels.

Fingertip Adjustment

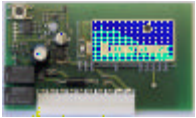

- 4 Diagnostic LED`s make fault finding simple when installing the Mini Standard
- Easily selectable automatic functions & features can be simply turned on or off by the flick of a switch.
